

Did you know?

The BDAACH Pharmacy can fill prescriptions from Host Nation Hospitals when the following conditions are met:

- Prescriptions must come from a **Tricare-Affiliated Host Nation Hospital (HNN)**. To find affiliated HNN, call the TRICARE Office or download the 'MYCARE OVERSEAS' Beneficiary App and Portal.
- You must receive two prescriptions, one in ENGLISH and one in HANGUL** (Korean language). If you only have one copy (in Hangul or mixed with both languages), please pick up your prescription from a local Korean Pharmacy. The prescription **cannot be expired** when you bring it to the pharmacy.
 - This is also required for diabetic supplies like glucometers, test strips, lancets, and alcohol swabs
- You should call the BDAACH Pharmacy at **050-3337-2070** to check availability of medications.
 - The following HNN prescriptions will not be filled:
 1. Non-formulary, non-stocked medications
 2. Controlled substances
 3. Tricare-restricted medications that are NOT prescribed by a specialty provider
 - HNN doctors can include substitute medications, but they must print the substitute **in English** on the prescription. If no substitute is on the prescription, please take the prescription to a Korean Pharmacy.
- Hard-copy prescriptions may take **1 business day** to fill.
- Questions about the process? Please call our expert! **Commercial: 050-3337-2861 (DSN: 737-2861)**
